Sprint Planning

Daily Standups

Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (March 25, 2026)

Added by Tracie Tomon 3 months ago

Answer the following questions:

1. What did you accomplish yesterday?
2. What can I commit today?
3. Anything blocking my progress?

JD RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (March 25, 2026) - Added by Jenine Elaine Dulay 3 months ago

1. What did you accomplish yesterday?
 - Updated the background blur effect on the welcome page.
2. What can I commit today?
 - Start on the "UI decluttering" work package.
3. Anything blocking my progress?
 - Limited availability due to house chores and other subject related assignments.

TT RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (March 25, 2026) - Added by Tracie Tomon 3 months ago

1. What did you accomplish yesterday?
 - Set up Forum for the Daily Scrum reports. Reviewed some of the FMBOK 40 processes.
2. What can I commit today?
 - Prepare the agenda for tomorrow's consultation meeting with the advisers. Set up the schedules for the two meetings.
3. Anything blocking my progress?
 - Work schedule

CC RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (March 25, 2026) - Added by Charjoy Cembron 3 months ago

1. What did you accomplish yesterday?
 - Created minutes of the meeting.
2. What can I commit today?
 - Create minutes of the meeting and start the registration feature.
3. Anything blocking my progress?
 - Other subjects.

JA RE: Sprint 1 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (March 25, 2026) - Added by Joshua Sta Ana 3 months ago

1. What did you accomplish yesterday?
 - Planned and started building an on-prem server for github cloning and environment setup
2. What can I commit today?
 - Continuing review of project documentations, recordings and work packages to update
 - Research for more deployment tools/platforms, DevOps solutions.
3. Anything blocking my progress?
 - Personal and work schedules/ agendas.

Sprint 1 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (April 1, 2026)

Added by Tracie Tomon 2 months ago

Answer the following questions:

1. What did you accomplish yesterday?
2. What can I commit today?
3. Anything blocking my progress?

TT RE: Sprint 1 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (April 1, 2026) - Added by Tracie Tomon 2 months ago

1. What did you accomplish yesterday?
 - Started coding the Failed Query content for the admin dashboard and reviewed the 02 Planning documents to finalize the designations.
2. What can I commit today?
 - Continue working on system development and documentation, as well as updating the work packages.
3. Anything blocking my progress?
 - Holy Week schedule and work schedule.

CC RE: Sprint 1 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (April 1, 2026) - Added by Charjoy Cembron 2 months ago

1. What did you accomplish yesterday?
 - I found the stakeholder analysis file from MSIADD and updated OpenProject details except for budget and cost.
2. What can I commit today?
 - I will do the planning phase documents assigned to me and to help in the initiation phase document group work.
3. Anything blocking my progress?
 - Other subjects.

JD RE: Sprint 1 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (April 1, 2026) - Added by Jenine Elaine Dulay 2 months ago

1. What did you accomplish yesterday?
 - Yesterday, I started the Business Case Document.
2. What can I commit today?
 - I will continue to work on the Business Case Document.
3. Anything blocking my progress?
 - Holy week plans and other subject related assignments.

JA RE: Sprint 1 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (April 1, 2026) - Added by Joshua Sta Ana 2 months ago

- What did you accomplish yesterday?
 - OPEN PROJECT - *ross matrix* features to log user stories and task budget costing - Created a separate draft or completion and posting to Open project
 - PREREQ requirements - started the 01 initiation documentation specific to Project brief template and statement of work draft for checking
 - DEPLOYMENT - *proxmox* server already installed, configured for remote access.
- What can I commit today?
 - Will start the project feature development in VSCODE
- 01 initiation documentation requirements continuation, assigned and group work
 - Project brief template
 - Statement of work
- Will start Ubuntu server instance creation to proxmox and configuration
 - Github cloning
 - CI/CD workflows to Github and Viscode
- Anything blocking my progress?
 - Holy week plans, limited internet bandwidth

Backlog Refinement

The screenshot shows a web browser window with the URL <https://www.scrumpoker-online.org/en/room/42372054/scrumpoker>. The interface includes a card selection area with cards numbered 1, 2, 3, 5, 8, 13, 20, 40, and 100. Below the cards is a table for estimating story points:

Name	Story Points
Chari	
Josh	20
Jenine	20
User Story Points	20

To the right of the browser window is a document titled "Term 3 Sprint 1 Product Backlog Refinement (March 28, 2026, 9:59 pm)". It lists added backlogs and user story points, followed by a list of features for refinement:

- Feature 1.0 User Account Registration System -
- Feature 2.0 LLM Source Accuracy Optimization / Enhance Prompt -
- Feature 3.0 Welcome Page & Form UI Modernization -
- Feature 4.0 Display Philippine Standard Time (PST) -
- Feature 5.0 Clickable Modal Interface (Feedback Manager) -
- Feature 6.0 UI Decluttering (Feedback Table View) -
- Feature 7.0 Data Pagination (Feedback Manager) -
- Feature 8.0 Targeted Dormant Material Export -
- Feature 9.0 Failed Query Keyword Tracking -
- Feature 10.0 "Least Viewed" Metric tracking -
- Feature 11.0 Column Merger & Analysis Dropdown Refinement -
- Feature 12.0 Explicit Date Formatting & "Feedback Type" Column Renaming -

On the right side of the screen is a video conference window showing five participants: Jenine Elaine Dulay, Charjioy Cempron, Joshua Sta Ana, and Tracie Tomon.

Sprint Review

The screenshot shows a web browser window displaying an "Account Profile" form. The form fields are as follows:

- Full Name: Tracie Tomon
- Username: tracie
- Email: tracetomon@gmail.com
- School Level: Postgraduate
- School Name: Asia Pacific College
- Client Type: Citizen
- Sex: Female
- Age Range: 21-25
- Region: NCR
- User Category: Student

Below the form is a "Security" section with fields for "Current Password", "New Password", and "Confirm Password". A message at the bottom indicates "teams.cloud.microsoft is sharing your screen".

On the right side of the screen is a video conference window showing four participants: Tracie Tomon, Jenine Elaine Dulay, Charjioy Cempron, and Joshua Sta Ana.

Sprint Retrospective

The screenshot shows a Trello board for a sprint retrospective. The board is divided into three main columns: 'START (Things the team should begin doing)', 'STOP (Things the team should stop doing)', and 'CONTINUE (Things the team should keep doing)'. Each column contains a list of tasks with checkboxes. To the right of the board is an 'ACTION ITEMS' column. A Notepad window is open on the right side of the screen, displaying a list of steps for a sprint retrospective, including 'Set the Stage', 'Gather Data', 'Generate Insights', 'Decide What to Do', and 'Close the Retrospective'. The Notepad window also shows a list of participants: Jenine Elaine Dulay, Tracie Tomon, Joshua Sta Ana, and Charijoy Compron.

Sprint 2 Ceremonies

Sprint Planning

The screenshot shows a Trello board for 'Term 3 Sprint 2 Sprint Planning'. The board is divided into two main columns: 'BACKLOG' and 'Add another list'. The 'BACKLOG' column contains a list of tasks with checkboxes. To the right of the board is a Notepad window titled 'Term 3 Sprint 2 Sprint Planning' which provides instructions for the sprint planning meeting, including 'Begin your Sprint Planning meeting in your assigned group channel', 'Assign your product owner, scrum master and dev team', and 'Create the following lists'. The Notepad window also shows a list of participants: Charijoy Compron, Tracie Tomon, Joshua Sta Ana, and Jenine Elaine Dulay.

Daily Standups

Sprint 2 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (April 24, 2026)

Added by Tracie Tamon about 2 months ago

Answer the following questions:

1. What did you accomplish yesterday?
2. What can I commit today?
3. Anything blocking my progress?

JD RE: Sprint 2 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (April 24, 2020) - Added by Jonine Elaine Dohy about 2 months ago

1. **What did you accomplish yesterday?**
 - Started implementing the following tasks: setting the welcome page background blur to 55%, adding the NFR region, and updating the Client Type logic (showing School Level and School Name for students, and Company or N/A for citizens).
 - Changes are not yet committed due to issues when pulling from Git, possibly caused by concurrent commits from others.
2. **What can I commit today?**
 - Work on aligning the Sources Information card with the AI Overview section.
3. **Anything blocking my progress?**
 - Academic workload from other subjects.

77 RE: Sprint 2 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (April 24, 2020) - Added by Thacie Tamon about 2 months ago

1. What did you accomplish yesterday?
 - Managed the project advisors for consultation.
 - Set up a meeting on the forum for the IS report.
 - Created user stories and tasks for each of my assigned backlog.
 - Checked and tested the additional documents for finals to be assigned to other members.
2. What can I commit today?
 - Check the minutes of the meetings sent by Chart.
 - Sync up files to both OneDrive and SharePoint.
 - Test the budget and cost in OpenProject.
 - Set up a new filter for the new sprint and assign possible documents to each member.
3. Anything blocking my progress?
 - Other schoolwork, commitments, and work schedule.

RE: Sprint 2 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (April 24, 2020) - Added by Charley Crenson about 2 months ago

1. What did you accomplish yesterday?
- I did my pending minutes of the meeting.
2. What can I commit today?
- I will do the revisions suggested by the client in account registration and profile.
3. Anything blocking my progress?
- I don't have my own laptop or desktop at home.

RE: Sprint 2 Week 1 Day Of Daily Scrum Meeting Individual's Updated Report (April 24, 2020) - Added by Joshua Sta Ana about 2 months ago

- **What did you accomplish yesterday?**
 - Reviewed pending project backlogs
 - Created user project drafts for completion
 - Code file and code structural refinement were specific to main dashboard to eliminate code errors during development
- **What can I commit today?**
 - To create task user cluster from the official assigned work packages
 - Web3 implementation, tutorial for [researchgate.net/publication/352021166](https://www.researchgate.net/publication/352021166) developer focused email platform designed to build, test, and deliver transactional and email notifications via API
- **Anything blocking my progress?**
 - N/A

Sprint 2 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (May 5, 2026)

Added by Tracie Tamm on about 1 month ago

Answer the following questions:

1. What did you accomplish yesterday?
2. What can I commit today?
3. Anything blocking my progress?

RE: Sprint 2 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (May 5, 2020) - Added by Joshua Sta Ana about 1 month ago

- What did you accomplish yesterday?
 - Updated the PMO/ECB assigned document specific to configuration management plan "Issuance of weekly status report to be review by the project manager" and as well as the Weekly Project Status Report template format
 - Worked on NPMH front and backend server assigned packages needed: three domain, jenkins and maven updates
 - Resolved local issues: Kudu Client issues: assigned Feature: Kudu Client: Logging in to "Unified Code" Tracking logging to the server tested and tested.
- What will I commit today?
 - To review Sprint 2 Week 2 Day 2 Daily Scrum Meeting Individual Updated Report (May 5, 2020) recordings.
 - To request for a two day sprint cycle so that changes would reflect to the main github branch.
 - To update user acceptance details of feature: Kudu Client: Deviation: Logging & "Unified Code" Tracking for Burundian client and budget synchronization
 - To send Weekly Project Status Report template format for review by the PM
 - To start with updating the deployment manual/documents
- What are the chances of QA testing per test case template in alignment with the 1st requirements
 - "Review use of case"
 - "Update of fully passed (see Cases)
- Anything blocking my progress?
 - Personal expense and job workloads

RE: Sprint 2 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (May 5, 2020) - Added by CherJoy Compton about 1 month ago

1. **What did you accomplish yesterday?**
 - I revised the risk register.
2. **What can I commit today?**
 - I will finish the risk management plan document and test the test cases.
3. **Anything blocking my progress?**
 - I don't have my own laptop or desktop at home and other subjects.

RE: Sprint 2 Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (May 5, 2020) - Added by: Isac Tamon about 1 month ago

1. What did you accomplish yesterday?
 - I started working on Feature 13, posted a message in the forum, and reviewed the meeting minutes.
2. What can I commit today?
 - I will commit to assigning the remaining PMOIC documents and continue with the development tasks
3. Anything blocking my progress?
 - Other schoolwork, commitments, and work schedule.

RE: Sprint 2/Week 2 Day 03 Daily Scrum Meeting Individual Updated Report (May 5, 2020) - Added by Jessica Elaine Dufvy about 1 month ago

1. What did you accomplish yesterday?
 - I updated the unit costs for my assigned work packages and revised previously created test cases.
2. What can I commit today?
 - I will continue improving the test cases and begin working on the OS document I was assigned to.
3. Anything blocking my progress?
 - Academic workload from other subjects.

Backlog Refinement

The screenshot shows a web browser window displaying the OpenProject interface. The left sidebar contains navigation links such as Project Home, Activity, Roadmap, Work packages, Gantt charts, Calendars, Boards, Meetings, Wiki, Backlogs, News, Time and costs, Budgets, Forums, Members, and Project settings. The main content area shows a backlog titled "APC_2025_2026_T1_M0231_001 - Backlog". It lists several user stories with their descriptions and point values:

- Feature T1B Cloud and Client-side Deployment** (0 points)
 - User story: As an end user, I want the web app to be hosted on the cloud so that I can access it anytime from any browser without installing anything. - 26
 - User story: As an admin, I want to access the admin dashboard via browser so that I can manage the system remotely without needing a local setup. - 26
- Feature T1B Targeted Dormant Material Export** (0 points)
 - User story: As a Librarian Administrator, I want to export a targeted list of dormant materials, not accessed for 1 month from the LxPath AI dashboard, so that I can review and manage underperforming thesis and dissertation content efficiently.
- Feature T1B Least Viewed Metric Tracking** (0 points)
 - User story: As a Librarian Administrator, I want to view a Least Viewed Materials metric in the Material Rating tab replacing the Top Least Accessed metric, so that I can better track and identify underperforming thesis and dissertation content in LxPath AI.
- Feature T1B Query Duration Logging & "Upbeat Data" Tracking** (0 points)
 - User story: As an admin, I want the system to automatically log how long each user stays in a session so that I can monitor user engagement and activity.
 - User story: As an admin, I want the system to automatically log how long each user stays in a session so that I can monitor user engagement and activity.
- Feature T1B Feedback Filtering Refinement & Advanced Report Filtering** (0 points)
 - User story: As a Librarian Administrator, I want to filter feedback records by Category and Status, so that I can quickly isolate specific subsets of feedback data and generate focused reports without manually scanning through unrelated entries.

On the right side of the screen, there are two panels:

- Product Backlog Refinement** (April 27, 2026, 9:15 pm)
- User Story Points:**
 - As an end user, I want the web app to be hosted on the cloud so that I can access it anytime from any browser without installing anything. - 26
 - As an admin, I want to access the admin dashboard via browser so that I can manage the system remotely without needing a local setup. - 26
 - As a Librarian Administrator, I want to export a targeted list of dormant materials (not accessed for 1 month) from the LxPath AI dashboard, so that I can review and manage underperforming thesis and dissertation content efficiently.
 - As a Librarian Administrator, I want to view a Least Viewed Materials metric in the Material Rating tab replacing the Top Least Accessed metric, so that I can better track and identify underperforming thesis and dissertation content in LxPath AI.
 - As an admin, I want the system to automatically log how long each user stays in a session so that I can monitor user engagement and activity.
 - As an admin, I want the upload date of each material to be automatically recorded so that I can track when it was added to the system.

[illegible]

The screenshot displays a Zoom meeting interface with five participants: Jenine Elaine Dulay, Charijoy Cempron, Tracie Tomon, and Joshua Sta Ana. The main content area is split into two windows. The left window shows a Trello board titled 'Sprint Retrospective Term 3 Sprint 2'. The board has a 'CONTINUE (Things the team should keep doing)' list with one card, and two columns for 'Responsibility' and 'Collaboration and Communication', each containing a list of retrospective questions. The right window shows a Notepad application with a detailed agenda for the retrospective, including sections for 'Agenda', 'Specific Action Item', and 'Other Matter'.

Agenda:

1. Set the Stage
2. Gather Data
 - Review sprint events (timeline, completed tasks, blockers)
 - Ask questions like:
 1. What went well?
 2. What didn't go well?
 3. What issues did we face?
 - Use format: Start / Stop / Continue
3. Generate Insights
 - Group similar issues together
 - Discuss why problems happened (root cause analysis)
 - Identify recurring challenges or bottlenecks
4. Decide What to Do
 - Prioritize the most important issues
 - Define specific action items
 - Assign an owner for each action
 - Ensure actions are realistic and measurable
5. Close the Retrospective
 - Summarize key decisions and actions items
 - Ask for quick feedback on the retrospective itself

Specific Action Item

1. Stop Processing -- ALL, whole duration of Sprint 3
2. Continue updating the OpenProject work packages while developing -- ALL, whole duration of Sprint 3
3. Dedicate more time on feature implementation and planning design prior to coding -- ALL, Sprint Planning (May 8, 9:30 PM)

Other Matter:

Sprint 3 Ceremonies

Sprint Planning

The screenshot displays the OpenProject web application interface for Sprint Planning. The main content area shows the 'Term 3 Sprint 3 Sprint Planning' page for the 'AY 2025-2026 T3 Sprint 03'. It includes an agenda with tasks like 'Begin your Sprint Planning meeting', 'Assign your product owner', and 'Create the following lists'. A sidebar on the left shows a list of boards, and a bottom section shows a list of tasks assigned to the user. On the right, a video call window shows four participants: Jenine Elaine Dulay, Charjoey Cempron, Joshua Sta Ana, and Tracie Tomon.

Daily Standup

Sprint 3 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (May 11, 2026)

Added by Tracie Tomon about 1 month ago

Answer the following questions:

1. What did you accomplish yesterday?
2. What can I commit today?
3. Anything blocking my progress?

JD RE: Sprint 3 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (May 11, 2026) - Added by Jenine Elaine Dulay about 1 month ago

1. What did you accomplish yesterday?

- I started working on the OS Closing Document and the RTM, which will still require updates if there are further changes to the test cases.

2. What can I commit today?

- I will continue progressing on the two PMBOK documents currently in progress.

3. Anything blocking my progress?

- Academic workload from other subjects.

CC RE: Sprint 3 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (May 11, 2026) - Added by Charjoey Cempron about 1 month ago

1. What did you accomplish yesterday?

- I finished revising the risk management plan document and creating the transition out plan document.

2. What can I commit today?

- I will test the test cases and finish the 3 minutes for 3 meetings.

3. Anything blocking my progress?

- I don't have my own laptop or desktop at home and other subjects.

TT RE: Sprint 3 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (May 11, 2026) - Added by Tracie Tomon about 1 month ago

1. What did you accomplish yesterday?

- Set up message on Forum for Sprint 03 DS report Week 1 Day 1
- Revised SRS
- Completed initial test cases
- Completed the documents to be signed by the client (GDrive)

2. What can I commit today?

- Complete the remaining PM docs for D4 and D5 phases
- Set budget and cost in the OpenProject

3. Anything blocking my progress?

- Other schoolwork, commitments, and work schedule.

JA RE: Sprint 3 Week 1 Day 01 Daily Scrum Meeting Individual Updated Report (May 11, 2026) - Added by Joshua Sta Ana 26 days ago

1. What did you accomplish yesterday?

PM docs continuation

2. What can I commit today?

Revise assigned open project backlog to align with the client need

Continue deployment phase setup

PM docs documentation

3. Anything blocking my progress?

Limited resources

Sprint 3 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report (May 18, 2026)

Added by Tracie Tomon 26 days ago

Answer the following questions:

1. What did you accomplish yesterday?
2. What can I commit today?
3. Anything blocking my progress?

CC RE: Sprint 3 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report (May 18, 2026) - Added by Charjoey Cempron 24 days ago

1. What did you accomplish yesterday?

- I finished the two minutes for daily reports and revise the transition out plan and risk register columns.

2. What can I commit today?

- I will start developing the features that will be assigned to me in the Product Backlog Refinement meeting.

3. Anything blocking my progress?

- I don't have my own laptop or desktop at home and other subjects.

JA RE: Sprint 3 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report (May 18, 2026) - Added by Joshua Sta Ana 23 days ago

1. What did you accomplish yesterday?

Arranged documents and prepare revision notes

2. What can I commit today?

Will re watch recording of the recent defense and start with assigned PMDOCS revisions

Will start continuing project deployment phase according to backlog refinement and pending

3. Anything blocking my progress?

Work, personal agendas.

TT RE: Sprint 3 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report (May 18, 2026) - Added by Tracie Tomon 21 days ago

1. What did you accomplish yesterday?

- Set up message on Forum for DS report Week 2 Day 1
- Revised midterm and final PM docs
- Final Defense Presentation
- Prepared for backlog refinement meeting

2. What can I commit today?

- List of the necessary tasks especially for the final documents and requirements
- Start coding the remaining features
- Comments matrix

3. Anything blocking my progress?

- Other schoolwork, commitments, and work schedule.

JD RE: Sprint 3 Week 2 Day 01 Daily Scrum Meeting Individual Updated Report (May 18, 2026) - Added by Jenine Elaine Dulay 2 minutes ago

1. What did you accomplish yesterday?

- I completed the documents assigned to me and finished my assigned sections of the presentation. I also assisted with other parts of the PPT to help prepare for the presentation.

2. What can I commit today?

- I will revise my documents and presentation sections based on the panel's comments and recommendations. I will also help update any remaining parts that need improvement.

3. Anything blocking my progress?

- Academic workload

The screenshot shows a Microsoft Word application window. The title bar reads "AutoSave" followed by a save icon and "Sprint 3 Backlogs". The ribbon is set to "Home" and includes tabs for File, Home, Insert, Design, Layout, References, Mailings, Review, View, and Help. The Font section shows "Arial" font, size "11", and various formatting options like bold, italic, underline, and text color. The Paragraph section shows alignment and bullet point options. The Styles section shows "Normal", "No Spacing", "Heading 1", "Heading 2", and "Title". The right-hand sidebar contains a video conference interface with four participants: Tracie Tomon, Charijoy Cempron, Joshua Sta Ana, and Jenine Elaine Dulay. The main document area contains the following text:

- User Story: As an admin, I want a dedicated logs page so that I can monitor user activities without risk of modification.
- Priority: High
- Story Points: 5

13. Error Log Filtering for Try-Catch Events

- User Story: As an admin, I want to filter error logs so that I can quickly identify and debug issues.
- Priority: High
- Story Points: 3

EPIC 5: UI/UX Consistency

14. Align IT Admin Interface with Library Admin Interface

- User Story: As an admin, I want consistent interfaces so that system navigation is seamless.
- Priority: Medium
- Story Points: 5

EPIC 6: Project & Documentation

15. MVP Features Checklist for Acceptance Criteria

- User Story: As a project manager, I want a checklist of completed MVP features so that I can validate project readiness.
- Priority: High
- Story Points: 3

The status bar at the bottom left shows "Page 3 of 3", "313 words", and "English (Philippines)". The status bar at the bottom right shows "9:46 PM" and "3/14/2024".

The screenshot displays a web browser window with multiple tabs open. The active tab shows a document titled "LiPath AI Test Cases v2.0". The document is a table with columns labeled A through M. The table contains test cases for login functionality, including steps like "Enter Email address", "Enter Password", and "Click Login button". The results column shows outcomes like "Successful login", "User authenticated", and "Successful login". The browser interface includes a search bar, tabs, and a sidebar with a list of users: Tracie Tomlin, Charjoey Lempron, Joshua Sia Aina, and Jenine Elaine Dula.
